

wants all the blessings of Christianity without Christ. And like fruit cut from the stem it will rot.

What do you do when the foundations are destroyed? You build upon the foundation which will endure. And that is why for two thousand years the Church has pointed not to itself but to Jesus Christ!

And thus we close with the Psalmist question, "If the foundations are destroyed, what can the righteous do?" Go to the temple and pray to God as your refuge! Cease to do violence! Do righteous deeds! Put your faith in the only foundation for life, even Jesus Christ our Lord! Amen.●

BUSINESS COMMUNITY ASSISTANCE TO KOSOVAR REFUGEES

● Mr. McCONNELL. Mr. President, I rise today to commend members of the American and international business communities who are providing resources and technical expertise to help the United Nations and other international relief organizations alleviate the suffering of hundreds of thousands of Kosovar refugees.

Today, as we embark on the initial stages of a peace agreement, hundreds of thousands of Kosovar refugees remain scattered across the globe. Slobodan Milosevic and his troops have driven these victims out of their country, separated families, destroyed homes, and stripped the refugees of their personal identification papers. The United Nations High Commissioner for Refugees (UNHCR) reports that over 800,000 people have been forced to flee Kosovo since the Serb Army intensified ethnic purges two and a half months ago.

Refugee situations are always difficult. The Kosovar situation, however, has been exacerbated and complicated greatly by Milosevic's attempts at "identity erasure." Serbian soldiers have stripped the Kosovars of all identification documents and systematically destroyed civil records. Adding to the complexity of the situation, the refugees are spread over 30 different countries.

Companies such as Hewlett-Packard, Compaq, Microsoft, Securit World, Ericsson, and ScreenCheck are partnering with the Red Cross, UNHCR, the International Organisation for Migration and other international organizations on projects that will register the refugees, provide them with identification documents, and reunite them with their families. These companies are providing technical expertise, equipment, personnel and other resources that are allowing the refugees to be registered and located much more efficiently and effectively than ever before.

We are certainly witnessing a situation where the Internet and other recent technological innovations are providing solutions for real life problems. For example, Microsoft, Hewlett-Packard, Compaq and Securit have developed and provided systems that allow refugees to be registered, added to an international database, and to obtain

identification cards—all within minutes. Further, the Red Cross is working with Compaq and Ericsson to launch the Family News Network, which is the first Internet-based refugee tracing system.

These companies are to be commended for their contributions to help restore the Kosovar community. It is my hope that in the future more members of the business community will enter into such beneficial partnerships to help address problems facing our country and our world.●

TRIBUTE TO BEDFORD MEMORIAL SCHOOL

● Mr. SMITH of New Hampshire. Mr. President I rise today to honor the Bedford Memorial School for being selected as the 1999 Top Elementary School of the Year by the Excellence in Education Committee. The "Excellence in Education" award is an annual program designed to identify one elementary, middle, and secondary school that is representative of the many outstanding schools in New Hampshire.

The Bedford Memorial School was chosen for this honor because of the dedication and commitment to education by its teachers, parents, and students. Its exemplary partnership with home and community and outstanding mentoring program for all staff has created an environment conducive to the development of young minds.

I admire this school's commitment to excellence. Over the last five years they have taken on challenging initiatives, participated in goals setting, created a community school council, and forged school-business partnerships. Student focus is also one of Bedford Memorial's strengths. The many co-curricular programs, an excellent special education department, and a gifted program are able to serve the students' individual needs. The school's success is epitomized in the school's motto "The partnership of home, school, and community is essential to achieve our goal of academic excellence."

The teachers, parents, and students of this school hold a special place in my heart. Over the years, Mary Jo and I have visited the Bedford Memorial School many times, had the chance to meet both students and faculty, and have had the honor of teaching several classes there. This close involvement with the school has allowed me to witness, first-hand, the quality of education that is provided at this school.

The honor of being named Top Elementary School of the Year is a fitting end to an era for Bedford Memorial School. I am confident that as they take on additional grades and students, their school spirit will only continue to grow.

As a former teacher and school board member, I understand the tremendous impact teachers have on a child's life. The Bedford Memorial School is a testament to the tradition of molding stu-

dents into successful adults. I wish to offer my most sincere congratulations and best wishes to the Bedford Memorial School. The school's achievements are truly remarkable. I feel honored to have had such a close relationship with the Bedford Memorial School and represent them in the United States Senate.●

ORDER OF PROCEDURE

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I ask to speak in morning business.

The PRESIDING OFFICER. Morning business is in order.

Mr. GRASSLEY. If there is a time limit, I would like to speak for about 12 minutes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

RURAL METHAMPHETAMINE USE RESPONSE ACT OF 1999

Mr. GRASSLEY. Mr. President, I am introducing legislation on behalf of myself, Senators KYL, DEWINE, HAGEL, and KOHL, a bill referred to as the Rural Methamphetamine Use Response Act of 1999.

I do this in my capacity not only as a Senator from Iowa but as chairman of the International Narcotics Control Caucus of the Senate—a caucus that has had a tradition of working in a very bipartisan way on legislation and oversight hearings.

Methamphetamine is emerging as a new major drug problem across the entire country. It is one of the most dangerous drugs currently available. Its use destroys individuals and its production harms the environment. It is a problem that disproportionately affects rural America, even in our most urban States.

Methamphetamine is not a new drug in this country, but its growing use is very much a new problem. As the chart shows, meth has been around our country since the early 1980s, but its use then was largely confined to biker gangs and with a very limited market. Even then, much of the meth was produced in homemade labs in this country. Very little of it came out of Mexico and not so much in rural America.

The chart shows the city of Philadelphia with lots of examples of use of meth and meth laboratories. The numbers were few then and medical cases of meth-related problems were limited.

In San Francisco, for example, there were only 65 medical cases of meth-related problems, even in the year 1984. Let me assure Members that very low level activity situation for methamphetamine was not going to last very long because it began to change in the late 1980s and early 1990s.

During that period of time, Mexican criminal gangs began to become more
